

PARTS LIST

1. 2 x Posts
2. Shelving Tiers
3. 2 x Plastic Wedges per shelf
4. 2 x Stainless Steel Shelf Clips per shelf

REQUIRED TOOLS

- Rubber Mallet
10mm Open Ended Spanner (Shifter)

'IN-LINE' ADD-ON OPTION PLAN

* It is recommended to remove Real Tuff 'Drop-On' Shelf inserts before assembling, then replace after shelving is positioned

1

Lay two (2) posts side-by-side. Clip a wedge onto each post to locate the bottom shelf position. Match same height as Starter Bay.

2

Insert two (2) Shelf Clips into the outer location holes on the bottom shelf of the Starter Bay.

3

Lay a single shelf upright on its longest edge. Slide a post through 2 corner post-holes, at one end only.

4

Align Add-on Bay with Starter Bay. Lower open end of shelf onto clips so that both shelves are level.

5

a. Clip 2 wedges to both posts to hold the 2nd shelf.
b. Insert 2 Shelf Clips into the 2nd shelf of Starter Bay.

6

c. Align post ends with 2nd shelf and carefully lower onto both clips and wedges securely. Tap shelf down to fit firmly onto wedges & clips, using a light to medium force. (approximately 5kg of force).

7

'Drop-On' + Slide each Real Tuff (plastic) Shelf, one at a time, to lock and engage together.

8

Add-On Weight Capacity
150kg
Per Tier
(evenly distributed)

Repeat steps 6 and 7 above to install remaining shelves, and step 8 to replace Real Tuff 'Drop-On' Shelves back onto each Shelving Tier.

9

Level shelving with floor by adjusting Bullet Feet using a spanner
